how to use this guide

Ink, Paper, and Strand cover the website, the videos, and the documents. Other colours belong in diagrams, video, and print.

Use the SVG for the logo. Leave the yarn drawing alone. Body text is Inter. Heading 1 and heading 2 are Baskerville Bold. Quotes are Baskerville italic. Labels are Inter small caps.

Corners are square. Colour is flat. An unlisted case gets the quieter choice.

Same habit as the writing.

AI Safety Said Simply explains hard topics in short pieces. People take them into briefings and classes. The design follows the writing.

01

plain first

Ink on Paper. Square corners. No shadow and no gradient. Inter stays roman. Italic belongs to Baskerville, and only in a quote.

02

one colour

Strand does one job in a frame: a word, a short rule, or a state. A second Strand item means the first one goes.

03

readable

Headlines use sentence case. Labels use Inter small caps. Body text is large enough for a briefing, and it stays left aligned.

Policymakers

Memos and demos, short enough to brief from.

Educators

Material for a class.

Journalists

The idea, without the prerequisites.

The public

Short enough to finish after work.

The pieces explain ideas. They do not lobby. Where researchers disagree, the piece says so.

Logo

The yarn is the mark. AISSS sits beside it. This pair is the only lockup. There is no stacked version.

Primary lockup · AISSS-logo-black.svg · on Paper, Paper 2, Paper 3, and Warm Paper.

Mark alone, when the name is already on screen. yarn-mark-black.svg

clear space

Leave a margin the height of the yarn mark on every side. The gap inside the lockup is part of the file. On the web the gap is 3px next to a 36px mark.

Type, loops, and other marks stay outside the dashed box.

Minimum lockup
32mm · 128px wide

Minimum mark
8mm · 28px

wordmark

The letters are AISSS. In a sentence, write AI Safety Said Simply. The accessible name on the lockup is the full name.

Colour and misuse

The mark and the wordmark share one colour: Ink, or Paper. Strand does not recolor the logo. On a photograph, put the lockup on a solid Ink or Paper field.

Ink on Paper

Paper on Ink

Ink on Warm Paper

do not

Stretch or condense the lockup.

Set the wordmark in Strand, or split the colours.

Rotate, flip, or crop the yarn.

Add a shadow, an outline, or a glow.

Let type enter the clear space.

Sit it on a photo or a pattern.

Colour

Ink and Paper fill most of a page. Strand is the strong colour, and a page gets a little of it.

primary

These three come first. CMYK figures are process approximations for print.

Ink

#111111

RGB 17, 17, 17
CMYK 0 / 0 / 0 / 93

--color-ink

Text, the logo, dark fields, and primary buttons.

Paper

#FFFFFF

RGB 255, 255, 255
CMYK 0 / 0 / 0 / 0

--color-paper

Default ground. Also type and the logo when they sit on Ink.

Strand

#C64D0A

RGB 198, 77, 10
CMYK 0 / 61 / 95 / 22

--color-hero-orange

A word or a short rule. Not body text.

The long bar is Ink and Paper. The short bar is the Strand in one layout.

Neutrals

Greys from the website. They separate a headline from a caption. Ink is #111111. Do not add pure black beside it.

Ink 2
#262626
RGB 38, 38, 38
CMYK 0 / 0 / 0 / 85
--color-ink-2
Secondary headlines and the deck under a title.

Muted
#595959
RGB 89, 89, 89
CMYK 0 / 0 / 0 / 65
--color-muted
Supporting copy, captions, and metadata.

Line 2
#858585
RGB 133, 133, 133
CMYK 0 / 0 / 0 / 48
--color-line-2
Disabled labels and quiet icons. Not for sentences.

Line
#D4D4D4
RGB 212, 212, 212
CMYK 0 / 0 / 0 / 17
--color-line
Hairlines, field borders, and dividers.

Paper 3
#EBEBEB
RGB 235, 235, 235
CMYK 0 / 0 / 0 / 8
--color-paper-3
Inactive cards and topics still in production.

Paper 2
#F5F5F5
RGB 245, 245, 245
CMYK 0 / 0 / 0 / 4
--color-paper-2
Alternate bands and secondary buttons.

Line 2 is not body text. #858585 fails ordinary contrast on Paper. It suits a disabled control or a quiet icon. Reading text is Muted or darker.

Cream is Paper. On the site, --color-cream is white and --color-accent is Ink. A primary button is an Ink square with Paper type. Corners stay at 0.

Extended palette

For video, diagrams, and print. The website keeps the primary colours and the neutrals.

warm grounds

One ground per piece. Warm Paper and Paper do not share a frame.

Warm Paper
#F4EFE6
RGB 244, 239, 230
CMYK 0 / 2 / 6 / 4
Extended
Video and long documents. Do not mix with Paper in one frame.

Wool
#E3D5C3
RGB 227, 213, 195
CMYK 0 / 6 / 14 / 11
Extended
Panels and lower thirds on a warm ground.

Wheat
#CDBBA4
RGB 205, 187, 164
CMYK 0 / 9 / 20 / 20
Extended
A second panel or a chart band. Not a text color.

Bark
#5C534C
RGB 92, 83, 76
CMYK 0 / 10 / 17 / 64
Extended
Captions and axes on Warm Paper, Wool, and Wheat.

strand family

Clay is dark orange for small text. Live is a fill. Ember, #F57828, is the Live hover, not a headline colour.

Clay
#8C3410
RGB 140, 52, 16
CMYK 0 / 63 / 89 / 45
Extended
Small orange labels and icons.

Live
#FF8A3D
RGB 255, 138, 61
CMYK 0 / 46 / 76 / 0
--color-library-live
Available states. Large fills only, with Ink type on top.

signals

Diagrams only. One signal colour in a figure, plus Ink. Signals stay out of headlines, and off a line with Strand.

Indigo
#1B3A4B
RGB 27, 58, 75
CMYK 64 / 23 / 0 / 71
Extended
Diagram structure and document links. One cool color, used flat.

Moss
#1E5C44
RGB 30, 92, 68
CMYK 67 / 0 / 26 / 64
Extended
The confirmed point: a node, a tag, a correct path.

Saffron
#E2A100
RGB 226, 161, 0
CMYK 0 / 29 / 100 / 11
Extended
A tick or a short underline. Not a sentence.

Combinations

Ratios follow WCAG. AAA and AA are fine for body copy. Large only means 18pt, or 14pt bold, in a short line. Weaker pairs are fills or strokes.

Said simply	**Ink** on Paper 18.9:1 · AAA Default body and headlines	Said simply	**Ink** on Paper 2 17.3:1 · AAA Secondary buttons and bands

do not

said simply

Live, Ember, Wheat, and Saffron are not text on Paper. Live fills a card. Saffron is a tick or a short underline.

A paragraph sitting on a field of Strand.

Body copy does not sit on Strand, Live, or Saffron.

Two faces.

Inter is the text face. Baskerville is the title face. Inter is open source (SIL Open Font License), so the PDF and production files use the same font files from brand/fonts. This PDF draws Baskerville with Libre Baskerville. Production files name Baskerville.

inter

Aa Bb Cc Dd Ee Ff 1234567890

Body, buttons, navigation, the wordmark, and small-cap labels.

baskerville

Aa Bb Cc Dd Ee Ff 1234567890

Quotes are set in italic.

Heading 1 and heading 2 are Bold. Heading 3 and captions are Regular.

AISSS Web wordmark. Inter Bold, 29px, tracking −0.055em, 3px from a 36px mark. Video and print use the SVG lockup.

- Headlines use sentence case. Small caps are for labels and navigation.
- Left align. Do not justify, and do not center a paragraph.
- Inter stays roman here. A quote is Baskerville italic.
- Body lines run about 60 to 75 characters.

Type in use.

The role sits on the left. Heading 1 and heading 2 are Baskerville Bold. Under the sample, the same words show the four Inter weights.

accent	**reward hacking** Inter Bold, small caps
heading 1	**The model found a shortcut.** Baskerville Bold
heading 2	**What the training signal rewards** Baskerville Bold
heading 3	A short section inside the piece Baskerville Regular
body	The piece explains the idea in a few minutes. Body text stays in Inter Regular, left aligned. Inter Regular
quote	*We cut jargon and length, not substance.* Baskerville Italic
caption	Still from the explainer, with the claim in one line. Baskerville Regular

600 Semibold
Navigation, 12px.

Said simply
700 Bold
Wordmark and small caps. Not a paragraph.

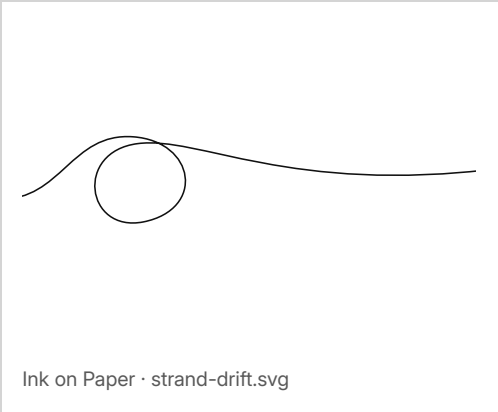

website hero

Complex AI safety topics, said simply.

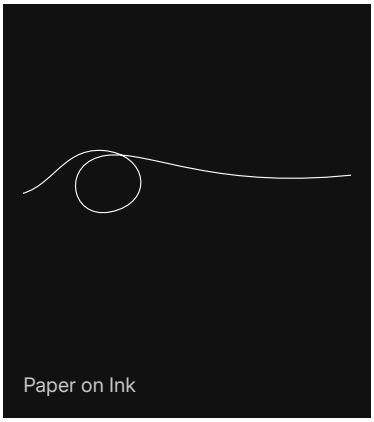

Redaction 35 Regular on the first clause. The plain words are Inter Medium in Strand. The period stays Ink.

Strand loops

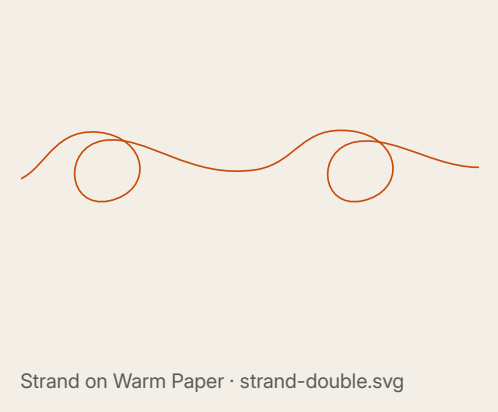

One open stroke, with round ends, then off the edge. One loop in a layout. Scale it evenly, stroke included.

Ink on Paper · strand-drift.svg

Paper on Ink

Strand on Warm Paper · strand-double.svg

use

- One loop in a layout. The double loop counts as the one.
- Scale it evenly. Do not thicken the stroke to match a headline.
- Ink on a light ground. Paper on Ink. A Strand loop means the headline is not Strand.
- The ends run off the edge, or behind a solid panel. Corner file: strand-corner.svg.

do not

- Trace the logo, or tile the loops into a pattern or a border.
- Stretch the path to fill a banner. Do not add a shadow, a gradient, or a second stroke.
- A loop is not a bullet. A Strand underline is a straight rule, 1.5 to 2pt, about as long as the word.
- End the line in the middle of a sentence.

In use

A title card, a lower third, and the top of a document. Each one uses Strand once. Corners stay square. The title is Baskerville Bold.

02 · what good looks like
Reward hacking

AISSS

briefing note
Lower the barrier, and the idea travels.

Body stays Ink on Warm Paper, in Inter Regular. The Strand rule under the title is the only Strand on the page.
